

Blackbaud Grantmaking™

Delivering the capabilities you need to streamline every aspect of your grantmaking.

In a constantly growing sector, having a **highly effective and streamlined grants management process** has never been more important. It's critical that you can move applications through your process quickly and get grants out the door faster. You need to stay informed in order to make the decisions that grow your non-profit and direct your grants to organisations that are able to make the biggest difference with your funding.

Blackbaud Grantmaking is a **complete grants management solution** which offers you and your organisation a **fully hosted software package** that improves efficiency, provides a data repository that helps organisations take insightful action, provides in-depth grant reporting, and takes the administrative and ongoing maintenance off your hands. What's more, **you have complete ownership of the system** and can therefore manage changes in Blackbaud Grantmaking within the organisation yourself.

Blackbaud Grantmaking delivers grantmaking capabilities when and where you need them, enabling you to **streamline and simplify every step in your grants management workflow**.

Blackbaud Grantmaking Benefits at a Glance

With Blackbaud Grantmaking your non-profit organisation will benefit from more strategic, efficient and collaborative ways to manage your funding. Thanks to these key benefits, every step of the grantmaking process is made simpler, faster, and gives you instant access to the information you need, to get the results you want.

1

Increased operational efficiency

An intuitive, user-friendly system simplifies every step of your grants management process, dramatically reducing the time it takes to perform administrative tasks. What's more, Blackbaud Grantmaking gives you the ability to manage all changes yourself, from making changes to the online application to adding additional fields to the grant management system. Having complete ownership puts you in control as well as keeping additional costs to a minimum. And because Blackbaud Grantmaking is in the cloud, you can access it any time, anywhere, making it easier than ever to manage your grant cycle.

2

Drive collaborative impact

Grantees, reviewers, board members and organisational leaders can connect and contribute to your giving processes, making it easier for all participants to collaborate more efficiently.

3

Instant access to the metrics and information you need most

Customised dashboards and powerful, robust reporting capabilities allow you to track key performance indicators in real-time, helping you maintain an informed understanding of your progress and the ongoing impact of your giving efforts.

4

Tailored for Grants Management

Blackbaud Grantmaking was developed by grantmaking technology experts to meet the needs of giving organisations - large and small. Because Blackbaud Grantmaking is highly configurable, it can support a variety of workflows and can adapt to changes in your processes. As your organisation evolves, Blackbaud Grantmaking scales to meet your needs.

Streamlined and straightforward

Blackbaud Grantmaking is easy to understand and simple to use. It provides configurable dashboards and quick access to commonly used functions for power users, while maintaining simplicity for infrequent users through an intuitive interface for easier navigation.

5

6

Seamless migration and automatic upgrades

Focus on giving — not IT. With a fully hosted site, you will never need to install anything to benefit from our continuous investment in research and development. We minimise your IT burdens and costs through seamless migration and automatic upgrades.

7

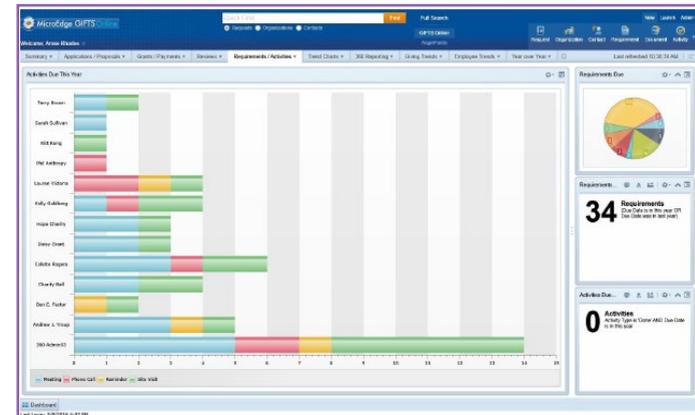

Industry leading data security

With a dedicated data security officer on our staff, and industry leading levels of data security measures in place, you can relax in the knowledge that your data is always safe and secure. We will also have all of your data regularly backed-up offsite.

8

We will have you up and running in no time

Backed by years of experience, our expert team collaborates with you to configure the solution to support your unique needs. Whether your organisation is new to grants management technology or migrating from an existing software-based solution, we make adopting Blackbaud Grantmaking simple.

Customer Story

Herbalife Family Foundation maximises impact and insightful giving with Blackbaud Grantmaking

Herbalife Family Foundation (HFF) is dedicated to improving children's lives by helping local organisations provide healthy nutrition to vulnerable children. HFF supports more than 90 of its Herbalife programmes around the world, and through this effort serves the nutritional needs of thousands of children, with annual grants to NGOs and charities that cater to vulnerable youth.

Why did you decide to move to Blackbaud Grantmaking?

“Before moving to Blackbaud Grantmaking, our grants management process was very labour intensive. With applications coming in from so many different directions and reports being run manually, the entire process was taking much longer than it should and was absorbing too much of our time.”

How is Blackbaud Grantmaking helping you with every day tasks?

“The ability to have multiple dashboards is great. When I log in the first thing I want to do is see the progress of all of our grants compared to our overall budget. With Blackbaud Grantmaking, I can quickly see which requirements are outstanding and which have been submitted. It helps me constantly keep tabs on what's happening, what has been done, and what still needs to be completed.”

What results have you seen since using Blackbaud Grantmaking?

“The efficiencies we have achieved give us the ability to focus on planning and be more strategic. We're increasingly able to track and report on our impact and our outcomes in the 50 countries we're operating in. We're touching a lot of organisations and lives with our grants, and we're now able to track and report on that in a much more effective way, allowing us to quantify our results and use them to further improve what we do.
